Town Meeting Monday, November 17, 1941

Agreeable to a warrant signed by the Selectmen November 7, 1941, the inhabitants of the Town of Stoneham qualified to vote in elections and town affairs met in the Town Hall in said town on Monday, November 17, 1941, at eight o'clock P. M.

The tellers appointed to serve on the check lists were as follows: Charles H. Parsons, Donald J. Morrison, James E. Fulton, Sr., John F. Murphy, Helen M. Barry, Marie M. Burns, Ellen E. Hogan, Bertha C. Moulton.

Three hundred and nine voters were checked on the list as being present.

The meeting was called to order by the Moderator, George E. MacNeil, Jr., who acknowledged the gift of a gavel made of wood from the hull of the U.S.S. Frigate Constitution, presented to the Town by Mr. W. A. Bates of 89 Spring Street, Stoneham.

The warrant was then read by the Moderator.

Article 1. To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money for general municipal purposes, under authority of and in accordance with the provisions of Chapter 49, Acts of 1933, as amended by Chapter 129, Acts of 1941.

Voted: That the subject matter of this article be indefinitely postponed.

Article 2. To see if the Town will vote to authorize the Chief of the Fire Department to sell, or otherwise dispose of one obso-

lete Buick automobile formerly used by the Fire Chief, pass any vote or votes, or do anything in relation thereto.

Voted: That the Chief of the Fire Department be and hereby is authorized to sell the obsolete Buick car formerly used as a chief's car in the Fire Department.

Article 3. To see if the Town will vote to raise and appropriate a sum of money or transfer or borrow under the provisions of Chapter 49, Acts of 1933, as most recently amended by Chapter 129, Acts of 1941, for the following purposes:

- (a) Board of Health Expenses
- (b) Old Age Assistance Disbursements
- (c) Sewer Extension Expense
- (d) Road Machinery Maintenance Account
- (e) Street Signs and Beacons
- (f) Call Firemen, Salaries
- (g) Schools, General
- (h) Water Services

Voted: That the sum of three hundred dollars (\$300.00) be appropriated for sub-division (b) Old Age Assistance Disbursements, said appropriation to be met by transfer from the unexpended balance of appropriation made for Outside Relief for the year 1941.

Voted: That the sum of three hundred dollars (\$300.00) be appropriated for sub-division (c) Sewer Extension, and that no liability shall be incurred against said appropriation in connection with the construction of a sewer for Penny Lane, so-called, until such time as the Board of Selectmen shall have executed a written contract with the person or persons, firm or corporation requesting a sewer in said Penny Lane; said contract shall, before execution by the Board of Selectmen, contain in addition to any other necessary details, an agreement to indemnify the Town for any loss suffered by reason of the legal liability of the Town to pay damages, of any form or nature, to others, for any reason whatsoever which in any way is the result of, or is associated with the construction of said sewer; it shall guarantee reimbursement to the Town for any supervision and engineering costs, together with any and all other costs to the Town; it shall contain proper specifications for said construction, both of which shall first have been approved by the Superintendent of Public Works, and shall require the filing with the Town Accountant of a bond which shall be of such denomination and suitable for the faithful performance of all the agreements and requirements of said contract.

Voted: That the following sums be appropriated for the remaining sub-divisions of this Article:

- (a) Board of Health Expenses \$2,340.00

(d) Road Machinery Maintenance Acct.	500.00
(e) Street Signs and Beacons	200.00
(f) Call Firemen, Salaries	650.09
(g) Schools, General	425.00
(h) Water Services	500.00

Voted: That the foregoing appropriations voted under subdivisions (a), (c), (d), (e), (f), (g), and (h) totalling \$4,915.09 be met by the following transfers of unexpended balances of appropriations made for the year 1941 totalling \$2,326.89:

From the appropriation for Fire Insurance	\$1,056.60
From the appropriation for Police Ambulance	93.63
From the appropriation for Board of Health Physician ..	1,000.00
From the appropriation for Board of Health Physician, Supplies	150.00
From the appropriation for Town Infirmary Horses	3.00
From the appropriation for Memorial Day	9.57
From the appropriation for Motor Vehicle Liability Insurance	3.89
From the appropriation for Street Lists	10.20

and that the balance of said appropriations in the amount of \$2,588.20 be met by transfer of said sum from the Excess and Deficiency Account and the Town Accountant be and hereby is authorized to make said transfers on the books of the Town.

Article 4. To see if the Town will vote to construct a sewer in and through Park Avenue from Sherman Road north, a distance of 430 feet more or less, raise and appropriate money therefor by transfer, borrowing or otherwise or do anything in relation thereto.

Voted: That the Town do construct a sewer in and through Park Avenue from Sherman Road north a distance of 430 feet more or less and that the sum of \$1,700.00 be appropriated for said construction, said appropriation to be met by transfer from the Excess and Deficiency Account and the Town Accountant be and hereby is authorized to make said transfer on the books of the Town.

Article 5. To see if the Town will vote to pay the salaries of the former Town Physicians for services rendered from January 1st to April 22, 1941 in the amount of \$360.10 and direct and authorize the Welfare Board to make said payment from the appropriation made at the annual Town Meeting in March, 1941, for Outside Relief.

Voted: That the Town do pay the salaries of the former Town Physicians, so-called, for services rendered from January 1, 1941 to April 22, 1941 and that the Board of Public Welfare be and hereby is authorized to make such payments in the amount of \$360.10 from the appropriation made for Outside Relief at the annual Town Meeting in March, 1941.

Article 6. To see if the Town will vote to raise and appropri-

ate \$360.00 for the Town Infirmary and determine how the appropriation shall be raised, by borrowing or otherwise, or do anything in relation thereto.

Voted: That the Town do appropriate the sum of \$360.00 for the Town Infirmary and that said appropriation be met by transfer from the unexpended balance of appropriation made for the year 1941 for Outside Relief, and that the Town Accountant be and hereby is authorized to make said transfer on the books of the Town.

Article 7. To see if the Town will vote to raise and appropriate or transfer or borrow money for Defense Purposes as authorized by Chapter 487, Acts of 1941.

Voted: That the sum of \$500.00 be appropriated for Defense Purposes, said sum to be expended for such purposes as are authorized by Chapter 487, Acts of 1941, that said appropriation be met by transfer from the Excess and Deficiency Account, and the Town Accountant be and hereby is authorized to make said transfer on the books of the Town.

Article 8. To see if the Town will vote to accept the provisions of Section 16B of Chapter 147 of the General Laws as inserted by Section 2 of Chapter 426 of the Acts of 1938, being an Act providing for one day off in every six days for Police Officers, raise and appropriate money therefor, by transfer, borrowing or otherwise, or do anything in relation thereto.

Mr. Crosby of the Finance and Advisory Board moved that the subject matter of this article be referred to the next annual Town Meeting. Mr. John N. Kelly offered a motion that the Town do accept the provisions of Section 16B of Chapter 147, General Laws, as inserted by Section 2 of Chapter 426 of the Acts of 1938, being an Act providing for one day off in every six days for Police Officers.

Capt. J. Clarence Nelson offered an amendment to add these words "and that the sum of \$50.00 be raised and appropriated or do anything in relation thereto." This motion to amend was ruled out of order and the motion as made by Mr. Kelly was then passed.

Article 9. To see if the Town will vote to pay the salaries to any member or members of the Police Department for time lost from work as a result of sickness or injuries received in performance of duty, said payments to be made from appropriations made at the annual Town Meeting in March 1941 for payments of salaries of police officers, to pass any vote or votes, or do anything in relation thereto.

Voted: That the Town do pay the salaries of Patrolmen Ellis B. Bradshaw and John P. Judge, members of the Police Depart-

ment, for time lost from work as a result of sickness or injuries received in performance of duty in the following sums:

Ellis B. Bradshaw	\$600.00
John P. Judge	186.00

and that the Captain of Police and the Board of Selectmen be and hereby are authorized and directed to make such payments, and that said payments shall be made from the unexpended balance of the appropriation made at the annual Town Meeting in March, 1941, for payment of salaries of Patrolmen.

Article 10. To see if the Town will vote to accept as a public town way, DeWitt Road (so-called), as laid out by the Board of Survey.

Voted: That the subject matter of this article be indefinitely postponed.

Article 11. To see if the Town will vote to amend the Zoning By-Law by reducing the area requirements of Lot number six (6) on the Easterly side of DeWitt Road shown on a plan of land of T. A. Ercoline and M. A. DeWitt, dated June 21, 1938, recorded with Middlesex South District Deeds, Book 6271, Page 327, by moving the northerly line of said lot twelve feet in a southerly direction so that the front and back lines of said lot shall then measure sixty-three feet and the area of said lot shall then be six thousand three hundred square feet, or do anything in relation thereto.

Voted: That the Town do amend the Zoning By-Law by reducing the area requirements of Lot number six (6) on the Easterly side of DeWitt Road shown on a plan of land of T. A. Ercoline and M. A. DeWitt, dated June 21, 1938, recorded with Middlesex South District Deeds, Book 6271, Page 327, by moving the northerly line of said lot twelve feet in a southerly direction so that the front and back lines of said lot shall then measure sixty-three feet and the area of said lot shall then be six thousand three hundred square feet.

REPORT OF BOARD OF SELECTMEN

To the Citizens of Stoneham:

Your Board of Selectmen, elected at the annual Town Meeting, Monday, March 3, 1941, met the following evening and organized as follows: Fred A. Schneider, Chairman; Harry R. Dockam, Secretary, and Charles Gibbons, Disburser of Soldiers Benefits. After the Board was properly organized they proceeded to carry on the business of the Town. The following appointments were made:

Superintendent of Moth: Percival Wardwell.

Sponsor's Agent: James Munro.

Pound Keeper: W. A. Rolfe.

Board of Appeal: Norval Heinlein.

Associate Board of Appeal: William Desmond, Robert Wills, Forest Blanchard.

Forest Warden: William McCall.

Dog Officer: George Sevard.

Town Accountant: Winthrop McCarthy.

Town Counsel: Orvis Saxby.

The Board has complied with the law by revising the Jury List and in the opinion of the Board this should be done annually according to the law. The following jurors were drawn in 1941:

Albert A. Holman, John F. Kelly, Henry M. Pinkham, Robert C. Miller, Roy W. Percival, Daniel E. Warren, Carl F. Daly, Edward R. Goodwin, Carl A. Hedberg, Chester A. Rogers, John L. Montgomery, Garrett Landers, David F. Stone, Gordon B. Cameron.

It was necessary to perambulate the Town Bounds in Wakefield, Melrose, and Winchester. The Selectmen recommend that the boundry stones be straightened and re-marked, to enable future Selectmen to locate markers easily and quickly.

The Selectmen would like to call attention to the fact that there was a great deal of new building in the Town in 1941 necessitating the laying of water and sewer pipes and the Board has tried to co-operate with the builders as far as possible. As the Board of Selectmen cannot do things without appropriations and they have no direct control over any monies, it is suggested that contractors, builders and others who intend to ask the Town for water, sewer, sidewalk and street betterments, include these articles in the warrant so that they can be considered and an appropriation made for same.

An appointment of a special committee was made for the disposal of Town buildings including the North School, South School, and Old Armory. Those appointed were John Murphy, Ernest Elbridge and the Selectmen. The committee is pleased to report that the North School was sold for the sum of \$10,000.00. The South School and Old Armory have been retained by the Town, the

latter now being used by the U. S. Government for a barracks for the U. S. Army. It was necessary for the Board to equip the Armory with plumbing and gas heaters for a supply of water for showers and to comply with sanitary regulations. This money expended will be reimbursed to the Town by the U. S. Government. The Selectmen are entering into a lease with the U. S. Government for all Armory Hall expense while in Government use. The Board and the special committee do not feel that there should be any attempt to dispose of these buildings at the present time.

The Selectmen continued the study of insurance in 1941 and feel that by placing the Town insurance in both stock and mutual companies that the Town received a better rate, a better coverage, and a better service. The Board has also endeavored to keep the different departments of the Town up to date in approving and presenting their bills in due time to receive the cash discount.

Your Selectmen have been confronted with the problem of National Defense which, of course, will mean an expenditure of money and also the conversion of our Town Office building into a control center, emergency hospital, and general defense headquarters. Undoubtedly this will make confusion but the Board tried to give the Town all of the protection possible under this emergency.

The Selectmen would like to make a suggestion relative to special Town Meetings when they are called by the Board. It is the duty of every voter to attend these meetings. It was necessary this year to hold two special meetings.

In conclusion of our report let us stress the fact that the Board of Selectmen has placed the facilities of the Town at the call of the U. S. Government and the National Defense Committee for the duration of this world emergency. The Selectmen feel that the citizens of the Town will continue to co-operate in this emergency as they have in the past.

We wish to extend our thanks to the various committees and officials of the Town for their help to the Board in administering the affairs of the Town.

Report of Town Counsel

The Honorable Board of Selectmen:

I respectfully submit the following as my annual report of the activities of the Legal Department for the year 1941.

All damage cases against the Town during the year have been suitably defended and numerous claims made by the Town for reimbursement for damage to Town property have been prosecuted. Requests for opinions and rulings made by various Town Officers and Departments have received prompt attention and all contracts, deeds, releases and other instruments required in the course of Town business have been duly prepared and executed. The more important activities of this Department during the year include the following:

Written opinions relative to the purchase of a new police car, the sale of property held by the Town under tax lien foreclosures, the authority of the Town to control the Board of Health and Board of Public Welfare, expenditure, of School Department appropriation for out of State travel, the effect of a Town Meeting resolution relative to the sale of the Old Armory, interpretation of contract relative to installation of heating boiler at Town Infirmary, etc.

Completion of many tax lien foreclosure cases and commencement of a large number of new cases, together with the preparation of papers transferring such property after sale by the Custodian of Property held through tax lien foreclosure.

Disposal by jury trials in Superior Court and by trials in the local District Court of all active damage suits against the Town.

Trial before the Appellate Tax Board of numerous appeals from refusal of the Assessors to abate property taxes.

Trial of Equity action in Superior Court endeavoring to compel the Town to discontinue use of the Stevens Street dump.

Defense of Certiorari action in Superior Court against Board of Selectmen.

Trial of suit in Superior Court seeking to recover from the Town on contract for grading Gould Meadow.

Collection of claims for the Welfare Department and disposal of certain mortgages held under Old Age Assistance Law.

Transfer of Old North School property.

Collection of old outstanding water and sewer bills.

Preparation of amendments to Stoneham Police Regulations.

Preparation of numerous easements for sewer constructions and street purposes for the Public Works Department.

In addition to the foregoing the Town Counsel has furnished a great many verbal rulings and opinions to various Town Officers and Boards and has been present at all Town Meetings and given rulings and opinions whenever called upon to do so. The policy of the previous year to maintain office hours in the Town Hall on certain mornings each week and on all Tuesday evenings has continued to be of value in carrying on the work of the Legal Department and the plan will be continued.

The Town Counsel has attended all meetings of the Massachusetts Association of Town Counsel and City Solicitors and maintained contact with the National Institute of Municipal Law Officers, all of which has enabled the Department to keep constantly abreast of rapidly changing conditions.

The present National Emergency has made it necessary for the Town Counsel to attend many conferences with County and State Law Officers at which policies have been determined relative to correct interpretation of laws affecting Cities and Towns and their application to the Defense Program.

Despite the fact that correspondence and other paper work has increased tremendously during the year, the expenses of this Department have been kept at a minimum and every effort made to prevent unnecessary expenditure of funds allotted for expense purposes. This policy will be continued unless some unforeseen exigency of the National Emergency should arise.

Due to the kindness and co-operation of all members of Town Boards and other Town Officers my work has continued to be most pleasant and I again wish to express my deep appreciation to one and all.

Respectfully submitted,

ORVIS H. SAXBY, Town Counsel.

RECOMMENDATIONS

I recommend that, as soon as possible, a teletype be installed so that this Department will be in contact with the other Police Departments in this State.

I recommend that a new Police Cruising Car be purchased and the car now held by the Department be traded.

I recommend that a new Motorcycle be purchased and the Motorcycle now held by the Department be traded.

I recommend that two Patrolmen be added to the present Department.

The demands upon the Department for special services in the interests of the citizens are constantly increasing. Not only must the most modern methods be used for prevention of crime, and detection and apprehension of criminals, but the safe-guarding of the homes and property and business establishments of the people of Stoneham requires an ever-increasing vigilance and supervision due to the exigencies of the times in which we live.

I believe that the primary obligation of a Police Department is the protection of the lives and property of the citizens and to make the homes, streets, and places of business safe for our people at all hours of the day and night by concentrating as far as humanly possible, with the depleted force available, every effort toward prevention of crime.

Our town is as free from crime as any town of its size in the Commonwealth and this is due, in a large measure, to the manner in which the officers perform their duties.

The Captain desires at this time to express his grateful appreciation for the co-operation and support given to him by the Honorable Board of Selectmen, also to all departments of the Town.

Respectfully submitted,

J. CLARENCE NELSON,
Captain of Police and Lockup Keeper.

Report of Fire Department

To the Honorable Board of Selectmen:

Gentlemen—The Engineers of the Fire Department respectfully submit the following Report for the year 1941:

There have been 290 alarms of fire as follows: 166 Bell and 124 Still Alarms.

Value of Property Endangered	\$113,100.00
Insurance Thereon	89,250.00
Estimated Loss	10,579.45
Insurance Paid	9,961.45
Net Loss	618.00

There was used at fires 54,550 feet of hose, 568 feet of ladders, and 1129 gallons of Chemical.

We hope this year (1942) to replace the Reo brush fire truck and urge the early replacement of the Ladder Truck, which is 19 years old and of the city service type which has become obsolete.

Our other equipment, including the Fire Alarm System is in good condition. This year we ask for additional permanent men, and we feel that the request should be granted inasmuch as there has been no addition to the Permanent force since 1927 and our Valuation and Population have increased to quite an extent.

We wish to thank the Board of Selectmen for their cooperation at fires. We would commend the officers and men of the Fire Department for their prompt response and efficient performance of their duties.

EXPENDITURE

Appropriation	\$24,808.09
Expended	24,588.09

Report of Inspector of Animals

December 31, 1941.

The Honorable Board of Selectmen:

Gentlemen—I hereby submit my annual report as inspector of animals for the year ending December 31, 1941.

The dairies are in good condition considering this time of the year. No animal inspection was ordered by the division of Livestock Control for 1941.

There were several reactors found during the year. These cows were destroyed as ordered. The premises were properly cleansed and disinfected by the owners under my supervision.

There were a large number of dog bites reported to me by the local board of health and police department. These cases were promptly investigated as required by law for a period of fourteen days and were not released until ordered by the State Department.

There have been no cases of rabies during the year.

Respectfully submitted,

WILLIAM H. ROLFE, Animal Inspector.

Report of Sealer of Weights and Measures

Stoneham, Mass., January 2, 1941.

To the Honorable Board of Selectmen:

Gentlemen—I submit my report for the Department of Weights and Measures for the year ending December 31, 1941.

The usual routine work has been carried on during the year also some special testings done by request.

The moving of the Sealers Office, due to the establishment of Defense headquarters has caused practically no inconvenience and the office is now comfortably located in room two.

Fees to the amount of \$63.96 have been collected and turned over to the Town Treasurer. A summary of the work performed follows.

Respectfully submitted,

J. A. FORBES, Sealer of Weights and Measures.

REPORT OF BOARD OF PUBLIC WELFARE

To the Citizen of the Town of Stoneham:

The Board of Public Welfare herewith submits its annual report for the year 1941.

On March 6, 1941, the Board organized as follows: Alton W. Estes, Chairman; Frank M. Simons, Clerk; Fred A. Schneider, Secretary.

The following appointments were made on the same date: Daniel Cullinane, Agent, C. C. C. Selecting Agent, W. P. A. Referral Agent, N. Y. A. Referral Agent; Paul Houghton, Visitor; Barbara Fisher, Clerk Welfare Department; Dr. Max J. Klainer, Welfare Physician.

At the Annual Town Meeting, there was no money appropriated for the Clerk which we had had for one year and she had to be discharged. Owing to the decreased case load, we were able to

keep going but in the fall we were compelled to again ask the Finance Board for an addition to our personnel and they transferred enough money to take care of a Clerk for approximately ten weeks.

This office is undermanned and it is not good policy to allow it to continue in this manner. At the present time we are without the proper help and if any of our personnel was called into the Armed Service, it would be necessary to replace them with untrained help. This is a costly method and we do not think it is good business to be training necessary personnel from year to year.

In April 1940, this entire office was placed under the Merit System. A qualifying examination was given to all incumbents in September, 1940. In September, this year, we were notified that all of the personnel of this office had passed the qualifying examination and were now placed under Civil Service and were subject to all rules and regulations thereof. It is our intention to again ask the town to furnish an additional Clerk-Investigator for our department.

At the Annual Town Meeting, money was appropriated for new laundry equipment and a pair of horses for the Infirmary. The laundry equipment has been installed and the horses have been purchased and both are now giving satisfaction.

At the Annual Town Meeting, the Town voted to dispense with a Welfare Physician and the Board of Health Physician was granted an increase in salary with the intention that they should perform the necessary physician's care for this department. This action was found to be illegal and on April 22, 1941, the Board voted to offer each physician in the town the opportunity of taking care of our indigent persons on the basis of \$.79 per call. We had only one physician who would accept this work on this basis and he has therefore taken care of all of our sick calls. This expense has been taken from money given to us for Outside Relief as there was no money appropriated for this purpose. We are again going to ask for a Welfare Physician for this department this coming year at a stipulated salary.

On June 12th, the boiler at the Town Infirmary went to pieces and it was necessary to replace. After appearing before the Finance Board and discussing this matter, it was finally agreed to purchase a new boiler which would be a larger boiler than the old one and increase the mains accordingly. It was also deemed advisable to install an automatic stoker. This was let out by contract at a cost of \$1855.00. This job has been completed and is now giving complete satisfaction.

The same policy as in previous years has been followed in conducting the affairs of our Welfare Department. All applications and investigations are handled by the Agent and are reviewed

weekly by the Board at which time they are either approved or amended and the policies of the department are made at the weekly meetings.

The Helen Stockwell Fund was not available this year owing to the fact that there were no earnings and we had no funds to work with this year from this source.

Our case load dropped considerably during the year over the previous year. This was due to the continuation of W. P. A. during the spring and also the numerous opportunities for private employment on account of the beginning of the Defense Program.

We have at the present time very few employable able bodied men. We do have, however, about fifty cases which will be with us for a long time and which must be taken care of and cannot be relieved through any prosperity which might come through the war activities. You will find an analysis of our case load on January, July and December which gives the picture of our cases on these periods.

AID TO DEPENDENT CHILDREN

There was only a small change in the case load of this category of relief during the year as we added five new cases and we closed five cases making a net loss during the year of three persons but still were aiding the same number of cases. We anticipate a large increase in this category of relief during the next year as we have several potential cases now waiting to be granted this form of relief providing the W. P. A. does not absorb some of the employable women during the next year.

We again invite the citizens to make suggestions and recommendations to this department which would mean more efficiency and allow us to do a better job.

The assistance and cooperation of officials and staff of the New England Sanitarium, Red Cross, Visiting Nurse, other associations, all Town Boards, officials and employees who have made it possible for us to carry on, is appreciated.

Report of Superintendent of Infirmary

Board of Public Welfare:

Gentlemen: I hereby submit my report for the year ending December 31, 1941.

Number of patients cared for to December 31, 1941	48
Number discharged to care for self	25
Number of deaths	4
Total number of patients days	7150
Total number of meals to recipients of aid	543
Total number of meals to patients	21450
Total number of meals to employees	6570
Total number of bed patients cared for during year	22

We raised enough fruit and vegetables to supply our own requirements.

Twenty-seven cords of wood sawed into stove lengths were delivered to welfare recipients upon orders from your office.

Planting, harvesting, sawing and delivering of wood was done with the assistance of patients and the welfare recipients.

New laundry equipment was installed and has proved to be very suitable for our needs.

A new pair of horses were purchased in the spring of 1941.

Three calves were born during the year, as well as five pigs were consumed at the Infirmary.

Three cows held up in milk production to meet our own requirements. They were tested for Bovine T. B. and were certified.

The following repairs were made to the equipment and maintenance of the buildings:

Electric Motor was removed from laundry floor and placed on cement foundation.

New electric wiring was installed throughout the basement of the main building.

New plumbing in the bathroom. Ceiling and walls were re-plastered throughout. Linoleum was installed on floor, also on kitchen table.

The front hall was renovated and is now used as an office. We are now better equipped to keep complete sets of records on all patients and medications.

The rear hall was repainted and the ceilings were kalsomined.

The new fire escape was given one coat of paint.

Four guide cables were placed on the roof of sunporch to fire escape.

New garage doors were applied.

Doors in coal shed rehung.

A new corner post placed in corner of building.

New floors in horse stalls.

New flooring for front steps in the main building.

All screens were repainted.

Cement foundation for motor in the laundry equipment.

Coal pocket, which was a W. P. A. project, was completed during the summer and is now in operation.

New sewer lines from house to septic tank.

Christmas was made more pleasant and cheerful for the patients by gifts, visitations, and entertainments from many organizations and individuals of the town. In behalf of the patients, I wish to thank the individuals and organizations who have helped to make the patients under my care happy through their generous donations and entertainments.

I personally wish to thank the Board for its cooperation and interest which they have taken in this house.

Respectfully submitted,

WILLIAM H. ROLFE, Superintendent.

REPORT OF BUREAU OF OLD AGE ASSISTANCE

To the Citizens of the Town of Stoneham:

Following please find the eleventh annual report of the Bureau of Old Age Assistance:

In March the Bureau was organized as follows: Frank M. Siggins, Chairman; Fred A. Schneider, Secretary; Alton W. Estes, Clerk.

The following appointment was made: Robert O'Loughlin, Supervisor.

In April of 1940, when a clerk was added to the office of the Board of Public Welfare, Paul Houghton was appointed as Investigator, his time allocated between the Board of Public Welfare and Bureau of Old Age Assistance. At the Town Meeting in March of this year there was no appropriation made for the continuance of the Welfare Clerk which resulted in Mr. Houghton returning to his duties as Clerk of the Welfare Department.

As a result of this measure, the personnel of the Bureau of Old Age Assistance was again reduced to one individual, Robert O'Loughlin, who serves as Supervisor and Investigator in addition to assuming all clerical work involved. Due to the re-organization of the State Department, the work required in this program has increased considerably and it is beyond the ability of one individual to carry on. However, at a special town meeting held in September, with the recommendation of the Finance and Advisory Board after a careful study of the situation, a sufficient sum of money was appropriated to employ a Welfare clerk for the balance of 1941 which automatically increased the personnel of this Department so that we were able to function in a more normal and less undermanned manner. Inasmuch as this appropriation has now been expended we are again obliged to proceed with a reduced personnel, but feel confident that the situation will be remedied in the near future.

It may be well to call your attention to the forthcoming increase in the cost of Old Age Assistance due to the liberalization of the Law as enacted by the Legislature on October 31, 1941 which becomes effective on April 30, 1942. With the present figures now available to this Department, which are in minority, we find there will be an increase in cost of approximately \$390.00 per month over and above the cost for the current year and a likelihood of additional costs to those already mentioned.

In accordance with rules set forth by the State Department, applications were handled in the same manner as in previous years, being accepted at the office or in the event of physical disability on the part of the proposed applicant a representative called at the home. All cases rejected by the local Bureau have the right to appeal to the State Board of Appeal who in turn investigate the

case and render a decision. All decisions rendered thusly are binding upon the Town.

Regular semi-monthly meetings are held at which time all new applications are considered and acted upon together with all other business associated with this program. Weekly visitations are made to our office by a State Investigator for verification of records and matters of importance. Changes in laws and policies and various individual problems are discussed and clarified. The State Department has access to our records at all times as have the Federal auditors who conduct separate audits.

REPORT OF TRUSTEES OF LINDENWOOD AND PLEASANT STREET CEMETERIES

To the Citizens of the Town of Stoneham:

Improvement throughout these cemeteries continues to be made.

This year new roads have been built in Lindenwood Cemetery as follows:

(1) Pine Avenue (Southeast section of Cemetery) from the junction with Locust Avenue up the hill to the junction with Poplar Avenue.

(2) Poplar Avenue (next to upper Lindenwood gate entrance) up hill to the turn (meeting new road built last year).

We have resurfaced Glen Path from Larch Avenue up hill to Pine Avenue. This road has never had a new and proper foundation but is now in condition to save washouts in the Spring.

Beech Avenue, uphill from Larch Avenue, and around the curve to Poplar Avenue has been dug out and foundation laid preparatory to completing next year with macadam finish.

Arborvitae Avenue uphill from Larch Avenue to Pine Avenue has been started.

When these roads are completed most of the main roads in the eastern half of Lindenwood Cemetery will be in excellent condition.

Work on the new stone wall continues by the Works Progress Administration (W. P. A.) The entire Montvale Avenue side is done and the Lindenwood Road side from Montvale Avenue to the lower gate is under construction at this time.

Lot owners have expressed much satisfaction with the new Perpetual Care markers and we note with much pleasure that these lots are showing the result of intensive care.

The charge for lots under Annual Care was slightly increased—on a basis of fifty cents per grave — with a minimum of \$3.00 and maximum of \$10.00. We find that even now our prices are considerably lower than those in most nearby towns. However, from figures compiled in our office over a period of two years we feel satisfied that these prices at the present time are practically sufficient to cover the expense incurred (not including overhead expense). Due to the extreme drought during the Summer and Fall of 1941 much grass and lawn will require more care than usual this year.

We were highly pleased to be VOTED a new truck at the 1941 Town Meeting and as we could still use our own hoist, dump body and snowplow, our equipment should last for some years.

The new cemetery building, which constitutes a garage and tool house, has been built under supervision of the W. P. A., but it is not quite ready for occupancy. It is located in the southwest

section of the Cemetery, left of the main road after crossing the bridge inside the entrance.

The public has expressed decided approval of the use of grave linings and we feel that this is a step in the right direction toward eliminating the unpleasant sunken grave condition.

Due to the general change in living conditions, and as the demand for large family lots in Cemeteries is decreasing, we have established a two-grave section, with prices scaled to those of larger lots. These lots are more practical in this period of time, as families separate and travel rather than remain in one location for generations as in past years.

This year (1942) we hope to install some type of street signs, at least on the main arteries of the cemetery. As the use of our Cemetery increases this is found necessary for the convenience of all—lot owners, funeral directors, visitors and employees.

In Pleasant Street Cemetery during the past two years we have had about twenty-five of the old monuments capped with copper plates. This should prevent these monuments from falling apart and preserve them for their historical value to our future generations. Pleasant Street Cemetery was used as far back as 1700, as indicated by monuments now standing which mark the graves of many settlers and influential citizens in the early life of the Town of Stoneham.

For detail of Receipts and Expenditures of this department we refer you to the Town Accountant's report.

REPORT OF BOARD OF HEALTH

To the Citizens of the Town of Stoneham:

The following is the report of the Board of Health for the year ending December 31, 1941:

We have had a great many more contagious diseases reported this year owing to the epidemic of Measles which started in September. Last year the same thing occurred in our neighboring towns.

Tuberculosis continues to be very active and we may expect the same for the next few years owing to the number of examinations being made of young men entering the service and also the State Health Department holding clinics for children in the High schools. At present we have nine patients in the Middlesex County Sanatorium, one in the Lakeville State Sanatorium and two in the North Reading Sanatorium.

We have spent over \$5800.00 for tuberculosis this year, of which \$4275.25 went to Middlesex County Sanatorium. If the new rates had gone into effect this year at the Middlesex County Sanatorium it would have been an increase of about \$1250.00.

Inasmuch as our expenditures show an increase in the cost of Tuberculosis this is partially offset by an increase in the amount of subsidies returned to the Town which this year amounts to \$1896.17, we have paid the Town Treasurer \$782.45 for licenses granted, making a total of \$2678.62 which will be received from this Department.

We wish also to draw the attention of the citizens to the Stevens Street dump, to the rapidity with which it is filling up. This year there was dumped 2429 loads of fill, 1539 loads were burned and from April 12th, 1121 loads were received from the shoe factory, making a total of 5089 loads received this year.

The Board of Health have continued having their regular meeting on the first and third Saturdays of each month.

REPORT OF BOARD OF ASSESSORS

To the Citizens of Stoneham:

Herewith is submitted the annual report of the Board of Assessors for the year ending December 31, 1941.

During the year just past, nothing of an unusual nature has taken place.

The administration of the office has been affected somewhat through sickness among members which, we regret to say, resulted in the resignation of one Assessor and the frequent absence of another.

Mr. John F. Murphy, a former Assessor, was appointed to fill the vacancy caused by the above resignation.

The past year has shown building estimates approximating \$296,000.

While the figure appears to be reassuring, it is nevertheless misleading as regard to the net profit of the Town. Much of the above sum will be absorbed in necessary upkeep, demolition, depreciation, and a large amount of construction which has not been started or finished to date.

Your attention is now directed to the following statistics:

Report of Superintendent of Public Works

To the Honorable Board of Selectmen:

Gentlemen:

I have the honor to present a report of the activities of the Public Works Department during the year 1941.

PROPERTIES

I again call to your attention the dire necessity of procuring better housing for this department and more land for storage of materials.

We do not have sufficient floor space to garage equipment, store materials, and provide the tool rooms and work shops that are necessary to efficiently operate this department.

I have brought this problem to your attention yearly since 1938 and we are yet to get relief. I have heard it advocated that temporary housing should be provided for trucks. I do not believe that money should be expended for other than improvements of a permanent nature.

We have continued to rent 57,000 square feet of land adjacent to our property and this area has been utilized for the storage of pipe, stone and sand.

Lumber, snow plows, snow fence, some pumps and other equipment are stored in the basement of the Old Armory. It is a poor arrangement because the basement is damp and it is a laborious task to get equipment into or out of this basement.

Once again supports have been placed beneath the basement floors of the office building and the barn to prevent further sinking or sagging of the floors.

Electric wiring at Pine Street has been replaced by a three wire 110 volt lighting line and a 220 volt three phase, 60 cycle power line. A blueprint machine has been set up in the basement of the office building. Attention has been paid to the general maintenance of property of Pine Street and the sewer pumping stations. This year we advocate repairs to the roofs and gutters of buildings located at Pine Street.

EQUIPMENT

It is a dire necessity that we not only maintain what equipment we have in A-1 condition and replace such equipment when it is beyond economic repair, but also supplement our present apparatus with additional equipment. Unless we do so, we are not in a position to provide either the efficient or the economic services expected of this department.

This year we are asking the town to purchase a shovel, two tractors and several other pieces of equipment.

GENERAL

The department has continued to repair our equipment and

sharpen our tools. It has also afforded similar service for the Park Department, Welfare Department and the W. P. A.

ADMINISTRATION

The water division of the Public Works Department, for the fourth consecutive year, has produced a surplus of income over expenses. The minimum rate for a meter was reduced from ten dollars to eight dollars in June and the surplus for the year 1941 is approximately \$4,500.00.

Stoneham was allotted \$23,812.38 by the State as their share of the diversion of the gas fund and this money was used for highway maintenance.

VACATION

All regular men who worked the minimum number of weeks during the year received two weeks vacation with pay. Permanent men were paid for Saturday half holiday, and legal holidays. Sick leave was granted not to exceed two weeks time in any one year.

SEWER MAINTENANCE

Stoppages in both main and service pipes received immediate attention as reported. Franklin Street sewer near Highland Avenue was repaired; also an underdrain on Spring Street near Washington Street. Manholes were constructed at the dead end of the common sewer in the following streets: Lincoln Street at Grant Street; Hancock Street at Dean Street; Webster Court opposite No. 6; Park Street at Grant Street; Park Street near Maple Street; Chestnut Road opposite No. 12; Chestnut Road opposite No. 6; William Street near Cottage Street; Coolidge Street opposite No. 9. PENNY LANE SEWER

Three hundred dollars was raised at a special town meeting to cover our supervisory expense in inspecting the construction of a proposed sewer extension in and through Penny Lane that the contractor agreed to build. No work was started on this extension.

HIGHWAYS

Broadway from High to Main Street, Brackett Avenue, June Road and the macadam aprons along Elm and Main Streets were surface treated with asphalt and pea stone.

Columbus Avenue and the cemetery side of Lindenwood Road were reconstructed. Cowdrey Street from High to Collincote Street was made passable to traffic. Gerry Street from Pine to Main Street was scarified and treated with tar.

Broadway from High Street to the Wakefield Line, Keena Street, Park Avenue from Elm Street to Broadway and part of Washington Street was surface treated with tar. General maintenance was expended on all streets requiring attention.

The Public Works Department engineered and supervised the laying of the following drainage by the W. P. A.

CHAPTER 90 CONSTRUCTION

It was not possible to complete the construction of Central Street this year for a late start was made because of objections to the relocation of the street and the specific details of the proposed reconstruction. Drainage was installed this year and our contract calls for the completion of the work by June 13, 1942. Additional funds will have to be raised by the State, County, and Town to complete the construction as the present allotments total \$33,000.00 and the project will cost \$38,000.00.

SIDEWALKS AND EDGESTONES CONSTRUCTION

This department supervised the construction of granolithic sidewalks at the properties of the Atlantic Refining Company and the United States Post Office.

Sidewalks were reconstructed using asphalt mixture at the following locations:

Gerry Street—Main Street to Pine Street.

Hancock Street—North side, Main Street to Warren Street.

Marble Street—South side, Main Street to No. 54.

Summerhill Street, West side, Summer Street to No. 16.

A stone dust sidewalk having a gravel base and a curb of asphalt mixture was constructed on the west side of Perkins Street from Newcomb Road northerly to No. 67.

REPORT OF STONEHAM SCHOOL COMMITTEE

To the People of Stoneham:

The Report of the Superintendent to the School Committee is submitted to the people herewith as the report of this committee. It contains certain points which we feel should be emphasized.

In the third paragraph is a discussion of one of the most serious problems facing school systems during this crisis. Conditions during and just after the last war serve as a warning of the dangers which we must try to avoid. We feel that a salary adjustment should be made in order to bring the schedule in line with the cost of living. This matter should not be delayed to the point where the system will suffer from loss of personnel or morale.

This report gives an outline of the basic objectives to which we aim in the training of the pupils. We recommend that all parents of children in these grades familiarize themselves with these objectives so that the training in the home and in the schools will be co-ordinated.

We extend our thanks to the entire personnel of the system for their loyal support during the past year.

Respectfully submitted

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee of Stoneham, Massachusetts:

Ladies and Gentlemen: I herewith submit my thirteenth annual report as Superintendent of Schools in the Town of Stoneham. It is the fifty-first in the series of such reports.

When I wrote my report to you last year we all felt that the world was in a state of great turmoil. The clouds which were gathering then have now produced the storm. We are engaged in an "all-out" war with the Axis Powers. We must do everything within our power to see that those forces which would destroy DEMOCRACY are crushed. In doing this, however, we should not forget that it is possible to win a war and lose a peace. In our efforts for defense we should not forget the words of our late president, Calvin Coolidge: "The chief defenses of democracy are not material. They are mental and spiritual. At the very foundation of the structure of democracy must be a sound system of public education."

A recent circular from the Babson's Statistical Organization to School People says, "When the Turmoil of War has ended and taken its toll in men and destruction, the Character of the American people will stand out as one of the greatest resources on which

to rebuild and establish world leadership. Much of the responsibility for developing this Character will be in the hands of the educators in our schools." Statements like these, coming from such sources, certainly give us cause to stop and to think deeply and sanely about our own schools. We must make sure that conditions which prevailed during the last war do not repeat themselves in the present war. At that time many of our best teachers were called to better paying positions. It is my earnest plea that teachers be treated as a very necessary part of defense and encouraged to stick to their teaching positions.

SUPERVISOR OF ELEMENTARY EDUCATION

Miss Katherine T. Gregory who became supervisor of elementary education in the Stoneham public schools in September, 1940, did excellent work and won the confidence of the pupils, the teachers, and the parents. Her duties here were cut short by her acceptance of a larger and better paying position in the neighboring town of Arlington. We wish her continued success in her new position.

After a careful consideration of all available candidates, Miss Alice Fernow, Director of Student Teaching in the State Normal School at Lyndon Center, Vermont, was elected. She came to Stoneham on November 17, 1941. Her years of experience as a teacher and a supervisor of teacher-training together with her fine educational background make her well fitted for the position she now holds.

VISUAL EDUCATION

Each school now has a 16 mm silent Bell and Howell moving picture machine. We secure most of our educational films from Boston University and the State Department of Education. Each teacher who wishes to use films studies the guide book carefully to see what ones are of most value to her classes. A brief report on each picture is made and placed on file to be used as a guide in future years. This includes not only what the film is but also how well it fits into the course of study. Many sound films are used in the high school. These are especially good in social studies. In other subjects and in some social subjects silent films are of greater educational value than sound ones because the teacher can adapt his lecture to his class. In these exciting days the teacher needs good films more than ever to make his subject more interesting. Carefully worked out experiments have shown that moving pictures increase the learning power of pupils and that subject matter is retained much longer. There is added value if a film may be shown, discussed and the subject matter studied again and then a second showing of the film given. We are therefore building up a small film library of our own. We now have eighteen subjects, most of which are single reels.

SOCIAL STUDIES IN THE ELEMENTARY GRADES

For several years we have been placing special emphasis on the social studies because of their value in providing experiences which will develop the child's individual abilities for living richly, usefully, and harmoniously.

In the primary grades experiencing is considered of prime importance in the learning process of the child. First hand experience with the environment, with things, and with people is necessary for the child to build concepts which will not only contribute to the richness of his every day living but will also form a foundation for subsequent living and learning.

Thus the work of the primary grades is social. For most children the essentials of their primary experiences are the discovery of many ways in which they are indebted to other people and the acquiring of ideals and habits that enable them to get along happily with others. The development of right attitudes is more important than the learning of facts which come better as incidents in the daily experiences of the children rather than through the setting of learning tasks. Their studies are personalized by the thought that a number of grown-ups are working for them: the firemen, the policemen, the mailmen, the teachers, the doctors, the storekeepers, the farmers, the truck drivers, and the mechanics of all kinds. Use is made of factual and imaginative stories and poems; dramatizations are encouraged; reading and reports are suggested; and through problems and exercises in everyday living emphasis is placed upon good American citizenship and character through practice rather than precepts.

Building upon the work of the primary grades, the course in the intermediate grades is devoted to a survey of selected aspects of our democratic way of living. The children in these grades study closely related series of units showing how peoples living under different geographic conditions and with varying traditions develop for themselves ways of securing food, clothing, shelter, protection, education, recreation, and a measure of idealism. The search to satisfy these basic human needs and the common social processes they involve form the motif for the program in the social studies in grade three. .

In grades four and five, our aim is to develop in the child a growing interest in history and geography—an interest which is stimulated by approaching all historical events as stories and by constantly linking together history and geography to impress the child with the constant relationship of men and nature. Consequently, the child sees all history as one great, thrilling tale, and not merely as a series of disconnected events separated from their geographic setting.

During the sixth grade, the course presents the basic elements in our broad social heritage. It incorporates significant and typ-

ical materials from the full range of human history, the story of our national development, the great areas of human geography, and the complicated processes of ordinary group living in a democracy.

Thus the Stoneham social studies course strives to educate children in the American way of living, to emphasize the characteristics of democracy which is our rich heritage, to teach them to love and respect our democratic rights, and to develop in them the determination to protect and continue to perfect our democratic way of living.

SOCIAL STUDIES IN THE HIGH SCHOOL

The junior-senior high school builds its courses upon the foundation of the elementary grades and has been alive to the necessity of rededicating itself to the continuance and the strengthening of the kind of education that the schools of a democracy must maintain if they are to play their part in the preservation of our American form of government. The courses in Civics, in United States History, in World History, in European History, in Problems of Democracy, and in Current Events have been popular in the school and the eager participation by pupils in these courses has been most satisfying.

We should not forget that our public schools are one of our first lines of defense. Much of the loyalty of our citizens depends upon the kind of education they have received. I heard one of the vice-consuls from one of the South American countries say: "The loyalty of the Filipinos is due in a large part to the work of the American teachers in their schools."

PHYSICAL EDUCATION

Today we hear so much about the need for physical education. Only a few years ago some people considered it a fad and a waste of money. Even today some schools cut their physical education to the lowest possible minimum.

Stoneham is fortunate to have two such fine supervisors of physical education as Mrs. Vera Lawson and Mr. Karl Elerin. All pupils from grades one through twelve have work which is adapted to their needs. The work is made pleasant through many and varied games as well as proper developing exercises.

Our coaches, too, have in mind the development of the individual boy or girl first and the development of winning teams second. It would be hard to estimate the value of the work of our physical education teachers and coaches in building wholesome characters as well as sound bodies.

MUSIC

There has been notable improvement in the work in music as organized during the past year by Miss Helen Sawyer and Mr. Roland Tapley. Much public approval was voiced in regard to both our vocal and instrumental music after our public musicale held in

the Town Hall last spring. Grades three through twelve took part in the fine program. The orchestra under Mr. Tapley has nearly doubled in size and has developed to a most satisfactory degree. The glee club under Miss Sawyer has enrolled about ninety girls and has taken part in radio broadcasts and in several other entertainments. This group is now divided into two divisions. The course in music appreciation has been improved and made more interesting. Several new records to assist in this work have been added to our collection. One of Miss Sawyer's first aims is to teach pupils to cultivate a love for good music as well as to keep in pitch and to produce good tones.

ACCOMPLISHMENTS IN THE JUNIOR-SENIOR HIGH SCHOOL

The professional spirit of the faculty remains high. A new course in Orientation organized and taught by Miss Dunning was approved by the School Committee in September, 1941. It is an extension of the work in character education which has been in effect for some time. In addition to the classroom work on human problems a number of assembly speakers have been provided at private expense. An extension of the high school stage has given us adequate space for orchestra and dramatic club rehearsals. One hundred fifty dollars of the cost for the work was earned by the Dramatic Club. The assembly hall has been redecorated. The window hangings and the tapestry panels were furnished by the Commercial Club under the supervision of Miss Smith. The beautiful velour curtains and other stage improvements were furnished by the Dramatic Club under the supervision of Miss Dunning.

A new system of following up the incomplete work of pupils in the English Department has been effective. We now withhold English marks until all required pieces of work have been finished by the student instead of allowing him to do just enough to pass.

The school library is more than ever a vital force in contributing to the progress of all school work. Many innovations and additional services have been instituted by the librarian. Special exhibits, up-to-the-minute reference lists, and the addition of carefully selected reference books are significant items.

The extension of the individual guidance program for members of the senior class includes this year a testing program to determine vocational interests and aptitudes. General intelligence, clerical ability and mechanical aptitudes and interest patterns can now be measured more objectively to assist the young man or woman who is seeking to find his proper niche in life. Many pupils formerly paid from five to ten dollars for similar services in Boston.

The placement bureau so successfully conducted by Mr. Hoyt of the Business Department during the past two years has been improved and the number of personal contacts with the leading

business houses materially increased. It is interesting to note that when there is a shortage of personnel the problem of efficient placement becomes more difficult rather than easier.

We have noted in the student body an increased desire to be of service to others. The Junior Red Cross has functioned throughout the year instead of periodically as in the past. Generous contributions have been made to various charitable funds. The junior high school clubs have contributed many articles for soldiers' hospitals.

NEEDS OF THE SCHOOLS

The most outstanding needs are:

- (a) Additional room for shop training in the junior-senior high school.
- (b) A lunch room for the junior-senior high school.
- (c) An inter-communicating broadcasting system for the junior-senior high school. (This is especially necessary as a safety measure.)
- (d) A larger appropriation for supplies and equipment for all schools to meet the increased costs of materials.

ENROLLMENT

I wish to call your special attention to the age-grade table for October 1, 1941 found later in this report. It should be noted that there is a decrease in the junior high school enrollment but a small increase in the elementary grades.

AIR RAID PRECAUTIONS

The chairman of the School Committee, the superintendent of schools, and the principals of the several schools have spent much time working out plans which will provide the greatest safety to the pupils if an air raid should come upon us during the hours the schools are in session. These plans have been presented to the whole School Committee for further suggestions.

Briefly, the plan now in effect is to keep all pupils in the schools until the "all clear" signal is given and usually dismissal will be no earlier than the regular closing time. The safest parts of the various buildings have been selected as refuge rooms. Drills similar to those used for many years as fire drills have been worked out and are being perfected. In case pupils should be held for a long time, arrangements are being made to furnish them with food.

Since we wish to have our telephones free at all times to communicate with the Report Center, we are urgently requesting parents NOT to try to telephone the school buildings or the School Department office. Please understand that everything possible is being done to protect your children and we need a FREE telephone line at all times to communicate with those centers who are ready to furnish us with outside aid if we are in need.

Let us all keep in mind the fact that our chances of being raided are about ONE in 50,000 and that most of these raids occur outside of regular school hours. Also, let us all remember that everything possible is being done so that we shall be ready IF an air raid should take place during school hours. All of our school teachers and supervisors are studying so that they may know what to do under such conditions.

CONCLUSION

In closing, I wish to thank all pupils, teachers, school committee members, and other citizens who have helped to make this most unusual year one of significant progress. We of the teaching staff wish to publicly express our deepest appreciation to all members of the school committee who have given so much time and effort to the guidance of our public schools. Your loyalty to the cause of democracy has been an inspiration to us.

Report of School Nurse

The school health program is essentially one involving a long-time effort, with long-time cumulative effects.

The school nurse's major job is health education. She helps the teacher find sources of health information for classroom use. She assists the physician with the school health examinations, explains the findings to the parents and to the children so that they will continue regular check-ups and good health practices after they leave school. Home visits and conferences with parents at school play an important part in her promotion of health. To further itemize activities in this direction the following must be mentioned: provision for the care of accidents and for sudden illness; stimulation of interest and provision for Diphtheria immunization of pre-school children and entering first-graders; campaign to prevent and so eradicate Tuberculosis; special attention to those in need of medical or dental treatment, guiding pupils and parents to the proper sources; conservation of eyesight and hearing through examinations and correction of defects found; conservation and promotion of personal habits through developing knowledge and skill in following the rules of healthful living.

The necessary environmental control and the early detection and individual specific treatment have meant victory over diseases which once were devastating scourges. Thus it is largely through the education of all people in personal hygiene and through taking advantage of the protection which a constantly growing medical science has to offer that we may reasonably hope for comparative freedom from all preventable diseases in times to come.

America must be strong. There must be united community action for the common good.

May this report be given a personal touch and may thanks be given to teachers, supervisors, parents, the superintendent of schools, and all other officials who have helped to make the school program for health, physical fitness and safety achieve results.

Report of Faculty Manager of Athletics

Mr. Charles E. Varney, Superintendent of Schools
Stoneham, Massachusetts.

Dear Mr. Varney: I herewith submit my sixteenth annual financial statement for the Stoneham High School Athletic Association.

The continued cooperation of Park officials in the use of the new playground at Recreation Park has helped in a measure to improve the financial situation of athletics at the High School this year. The Athletic Association, however, is called upon to pay for the materials and labor in the preparation and care of the field which amounts to about twenty dollars at each game. It is hoped that in the future the appropriation for the care of parks and playgrounds will be sufficient so that the officials of this department will not find it necessary to make this charge to the Athletic Association.

Much of our revenue, you will note, is provided from benefits such as the annual show and dance at Thanksgiving time and other dances and social events throughout the year. Since no adequate hall is provided in the High School building for these events, we find it necessary to make use of the new Town Hall. I believe that the Town Hall should be made available to the school on a limited basis without charge and I hope that steps may be taken in the effort to make this possible.

I am glad to have this opportunity to again extend for the Athletic Association and myself our sincere appreciation for all you have done in the support of the athletic program in the High School and to the School Committee members for their kind co-operation in all our affairs.

Very truly yours
WILLIAM M. NADEAU, Faculty Manager of Athletics

Report of the Work of the Middlesex County Extension Service In Stoneham

The following is a report of some of the activities of the Middlesex County Extension Service in the Town of Stoneham during the year 1941:

In Stoneham during the year most of the work, except for individual farm visits made to assist local farmers, was conducted with the 4-H Club boys and girls. Twenty-one boys and girls were enrolled in the clothing and handicraft clubs. Miss Clarice Jones served as Town Chairman with the following as members of the Town Committee: Mrs. Hazel Johnson, Miss Choris Jenkins and Mr. Charles Varney. Mrs. Elizabeth McRae has served as 4-H Camp Committee Representative. Local leaders were Mrs. Elizabeth McRae, Mrs. Perley Kendall. The girls in the clothing club, under the leadership of Mrs. Perley Kendall, did entirely Red Cross work, receiving full credit for it as a clothing project. At the completion of the season's work, all articles were exhibited and ribbons awarded.

A BRIEF EXPLANATION OF THE ITEMS IN THE PROPOSED SCHOOL BUDGET FOR 1942

Instruction:

Salaries:

	Present Salaries	Incre- ments
Elementary Schools	\$44,750.00	\$340.00
Junior High School	29,415.00	240.00
Senior High School	38,425.00	100.00
Supervisors	8,100.00	120.00
Administration	6,185.00	40.00
Evening School	550.00	
Substitutes	1,470.00	
	\$128,895.00	\$840.00
		\$129,735.00

Note:

Mr. Everett C. Hunt, Chairman of the School Committee, will write the Finance and Advisory Board a letter regarding an increase in salaries of Town employees because of the increase in the cost of living. Any such increases are in addition to salary items in this budget.

Books:

Elementary Schools 799 pupils @ \$1.50	\$1,198.50
Junior High School 416 pupils @ 2.25	936.00
Senior High School 404 pupils @ 2.50	1,010.00
	3,144.50

The increase in costs will be slight. Changes are more likely to be use of cheaper materials, thus enabling publishers to maintain prices at near present levels.

Supplies:

Elementary Schools	799 pupils @ \$2.50	\$1,997.50
Junior High School	416 pupils @ 3.75	1,560.00
Senior High School	404 pupils @ 4.75*	1,919.00
		5,476.50

*This includes \$1.00 for typewriters.

The estimated increased cost of supplies is 25%, although it is now 50% in some items.

II Operation:

Salaries \$10,500.00

Fuel: Oil:

East School 10,000 gals.

North School 13,000 gals.

South School 10,500 gals.

42)33,500 gals.—797 bbls. @ \$2.00—\$1,594.00

Oil prices are now \$1.86 per bbl. Our oil man says prices should remain near the present level and that \$2.00 should cover any increase.

Coal:

Emerson School 75 tons

High School 425 tons

500 tons @ \$8.50..... \$4,250.00

_____ \$5,844.00

Bituminous Coal: Prices are increasing. The price of \$8.50 per ton is as accurate a price as we can secure.

Miscellaneous:

Electricity \$3,300.00

Water 400.00

Gas 150.00

Towels, 75 cases at \$4.50 a case 337.50

Toilet Paper, 8 cases at \$10.00 a case 80.00

Floor brushes and Cleaning Materials 125.00

Floor Treatments 200.00

Liquid Hand Soap 50.00

Telephones 450.00

_____ \$5,092.50

These costs are based on the best information we now have. It is quite possible that prices will increase beyond these figures.

III Maintenance:

Shop Replacements and Repairs \$75.00

Cleaning A. A. Material 300.00

Repairs on Musical Instruments	50.00
Painting two Flagpoles	30.00
Repairs in the Junior-Senior High School as follows:	1,000.00
1. Painting girls' toilets	
2. Painting lunchroom	
3. Painting roof ventilators	
4. Painting 3 or 4 classrooms	
5. Plastering in Domestic Science rooms	
6. Whitening some classroom ceilings	
7. Replacing of screening in Domestic Science and lunchroom windows	
Lumber for stage in Emerson School and for shelving in the East School.....	150.00
General Repairs	700.00
Replacing 10 library chairs at \$3.50 each..	35.00
Replacing 90 locks at \$1.50 each.....	135.00
	————— \$2,470.00

Many repair items have been neglected because of lack of funds. We have listed only those that are most needed.

IV Auxiliary Agencies:

Health:

Nurse's salary	\$2,000.00
Nurse's travel	200.00
Doctor's salary	750.00
Supplies	250.00
	————— \$3,200.00

Library:

Salary	\$1,750.00
Annual increment	20.00
Books and supplies	450.00
	————— \$2,220.00

An increase of \$50.00 each for Health and Library supplies is asked to cover increased costs.

Transportation	\$1,200.00
Miscellaneous	450.00

This item is increased \$50.00 over last year to pay for the use of the Town Hall one night each by the Athletic Association and the Dramatic Club.

Placement Service	\$150.00
-------------------------	----------

V Outlay:

New Equipment:

Domestic Science Department	\$55.00
Science Department	75.00

Shop (new tools)	75.00
Musical instruments	250.00
Librarian's desk	50.00
	\$505.00

Only such new equipment is asked for as is needed for the efficient working of the School Department.

Graduation Hymn (the audience uniting) Hemy-Walton

1

Faith of our fathers, living still
In spite of dungeon, fire and sword,
O how our hearts beat high with joy
Whene'er we hear that glorious word!

2

Faith of our fathers, we still strive
To win all nations unto thee;
And through the truth that comes from God
Mankind shall then be free

3

Faith of our fathers, we will love
Both friend and foe in all our strife,
And preach thee, too, as love knows how
By kindly words and virtuous life.

Refrain

Faith of our fathers, holy faith
We will be true to thee till death.

REPORT OF TRUSTEES OF PUBLIC LIBRARY

To the Citizens of Stoneham:

Never before in its history has the Public Library had a greater opportunity to be of indispensable value to the community than at the present time. Never has the challenge to serve both wisely and well been more imperative.

The Trustees, recognizing these facts, believe that the Library has met its obligations with an eager desire to make every passing day count for good and a vision which has helped provide for future usefulness.

The work of a library is carried on so unobtrusively its privileges are often taken for granted by people who forget that its efficiency and scope depend almost entirely upon the amount of money appropriated by the Town for its use. Notwithstanding the increased number of adult readers, the growing circulation and the activities in the children's and students' rooms, the appropriation for the current year was considerably reduced. While the primary purpose of a library is to furnish books and other material for the reading public, there are always certain fixed charges and overhead expenses which must be met. Consequently when a retrenchment is demanded, the amount of money devoted to books must be reduced. This year, 1,175 books have been added to the Library. There should have been many more. Because of lack of funds very few volumes were added in December, a time when new books are in great demand.

We consider our reference library especially valuable. Our Librarian, Miss Martha A. Jackson, while acting as chief executive of the Library, is doing very commendable work in this department. During the year the reference collection has been enriched by the addition of a new set of *Encyclopedia Britannica*. A new edition of Compton's *Encyclopedia* has also been placed in the Children's Room.

In purchasing books, particular attention has been given to those which arouse a desire for further knowledge, which bring a sympathetic understanding of other countries and a clearer outlook on the world situation. We have chosen books which we trust will bring courage and hope and we have not been unmindful of the need of literature of escape which, in these dark days of depression, brings relaxation and forgetfulness of the woes of a war-torn world. We regret we have often felt unable to meet requests for expensive books which would have a very limited appeal.

The work in our Children's Room is a source of ever-increasing pleasure and satisfaction. Under the able direction of the Children's Librarian, Mrs. Bertha E. Houston, the room has become a Mecca for many children, and often grown-ups find much pleasure in browsing among the books which are made so very attractive

for every reader. The co-operation between the schools and the Library is resulting in the formation of the library habit in many children. In arranging exhibits, posters and other decorations, and in her ability to attract and understand children our Children's Librarian has made her services to the Library most valuable. In her work she has had the assistance of her son, Walter L. Houston, whose artistic posters have been enthusiastically admired.

The Library has recently received a bequest of \$5,000 from the executors of the will of the late Harry A. Hill. A portion of this fund has been invested in a U. S. Defense Bond. The income of this generous gift, in memory of Mr. Hill's wife, Mary Anna Hill, will be devoted to the purchase of books. An attractive book-plate, showing the entrance to the Library, which has been designed by Mr. Houston, will be placed in books obtained with this fund.

Repairs have been made on conductor pipes, additional units have been obtained for the card catalogue and new shrubbery has been planted in place of that which has died.

With an earnest wish to co-operate with the Town Defense Committee, the Trustees have offered the use of Library Hall if an emergency should arise to make this necessary.

Your attention is called to the report of the Librarian which follows. In this, details of various gifts, loans and services are recorded. The words of appreciation are cordially endorsed by the Trustees.

We recognize the loyal, co-operative spirit which has been shown by every member of the Library Staff and other employees and extend our thanks for all they have done to help make the Library a power for good in our community.

Report of Librarian

To the Trustees of the Stoneham Public Library:

I present the eighty-third annual report of the Stoneham Public Library for the year ending December 31, 1941.

Each year more service is demanded of the Library, not only from the schools and students, but from adults as well. The Library likes to give as much service as possible, but is sometimes hampered by limited funds.

An increasing amount of periodical literature is maintained, both current issues and files of preceding years. In this way a large amount of information is available through a comparatively

small expenditure. The care of this material is considerable but the benefit seems to make it worthwhile.

During the summer a number of books were loaned with vacation privileges and through the year frequent small loans were made to the Home for Aged People.

INTER-LIBRARY LOAN

We wish to express our appreciation for the loan of books from neighboring public libraries, Boston Medical Library, Massachusetts Institute of Technology, Tufts College and the State Division of Public Libraries.

GIFTS

A larger number than usual of magazines and books has been received from individuals and associations. These thoughtful gifts are of considerable assistance.

The Stoneham Garden Club has continued to display specimen flowers and has contributed a terrarium and a bowl of bright berries for late autumn. At Christmas the Club gave some evergreen table decorations with candles. Friends of the Library have given beautiful bouquets of flowers.

EXHIBITIONS

The Library is always glad to have the loan of interesting exhibits. Among those shown in the Adult Reading Room was a collection of antique silver and other small articles. During Newspaper Week a group of newspapers, some more than two hundred years old, was loaned by a Stoneham resident. Collections of photographs from vacation trips about New England proved of interest. A number of carved wooden ornaments and toys was displayed, the directions for their making having been found in the Library's "Popular Mechanics" magazines.

ADULT BOOK WEEK

Through the week a collection of new books for adults was displayed with posters in the Reading Room. Booklets made at the Library with a list of some of the prominent new books were distributed and the books were allowed to circulate on Saturday.

CHRISTMAS

At Christmas the Library was decorated with wreaths and a snow scene of a country village with lighted church was in the glass case of the Adult Reading Room.

In the Boys' and Girls' Room, Santa Claus was shown in his work-shop with his sleigh waiting outside for the toys to be packed and a tree and evergreens were the decorations.

BOYS' AND GIRLS' ROOM

During the year collections of books have been loaned to the Public Schools, New England Sanitarium School, St. Patrick School and the private kindergarten schools.

The Children's Librarian has visited the schools and spoken

at school councils. On December 1st she spoke to the Literature Group of the Stoneham Woman's Club on children's books and gave out lists of children's books suitable for Christmas presents.

Among the exhibits in 1941 were: South America, Foreign Dolls, Moths and Butterflies, Shells, Handicraft, Puritan and Indian Project from Dennison, Buttons Old and New, Indian Hand-work loaned by Mr. Adrian Chaput, and a collection of material used by Mr. Wilbur Fiske in writing "Bo, the Cave Boy."

The Spring Book Festival featured seventy-five new books, original posters, a border of lambs, bunnies and chickens made of cottonwool, with pussy willows and flowers.

The Summer reading project consisted of displays of books, maps, exhibits about the United States and nature stories in connection with the Antville Coal Mine exhibit. Six weeks in the summer vacation, story hours were held once a week with an average attendance of sixty-five.

In "Book Week" there was a Story Contest for grades four to nine inclusive, with books as prizes for the best stories in the opinion of the judges. Two hundred new books were displayed with original illustrations from seven of the new books. Miss Marian Cannon and Mr. Wilbur Fiske spoke at the Town Hall to the boys and girls about their books. Miss Cannon showed her original illustrations with her book talk. More than six hundred children attended from the Public Schools, St. Patrick's School and New England Sanitarium School. After the program was over the authors autographed their books and talked to the children informally.

A Story Hour was held for the children of the first three grades after school during "Book Week." One hundred and six children attended.

REPORT OF TREE WARDEN AND SUPERINTENDENT OF MOTH WORK

The Shade Tree Department with the assistance of the W. P. A. planted one hundred and thirty-five shade trees this year. We did considerable trimming and cavity work throughout the season.

The sum of \$2,970.61 was spent for Shade Tree work this year.

The Moth Department applied three sprays to private fruit trees and carried on its usual work on the roadsides and in brushland. The new Bean Sprayer has proved entirely satisfactory in spraying for the Elm Leaf Beetle.

The sum of \$4,948.34 was spent for Moth work this year.

Respectfully submitted,

PERCIVAL H. WARDWELL,
Tree Warden and Superintendent of Moth Work.

REPORT OF POST OFFICE BUILDING COMMITTEE

As a result of a vote under Article 3 of the Annual Town meeting, adjourned, held Monday, March 11, 1935, a committee was appointed by the moderator to cooperate with Congressman Edith Nourse Rogers in an effort to obtain a Post Office Building in Stoneham.

This committee took the matter up with the Congressman and members conferred with her in Washington. We were informed that there would be some delay since one other municipality in this Congressional district had obtained a commitment for the next allocation. We arranged to have our application placed next in line. Periodically we checked the situation to be sure that we were not being forgotten. In the spring of 1938 we were informed that an appropriation had been made. In later visits to Washington we endeavored to speed up the work.

Early in 1940 a sketch of the proposed building was submitted to the committee. The architecture of this building did not seem to blend with that of the existing buildings in the neighborhood. We arranged a conference with our congressman and the supervising architect of the Treasury Department and arranged to have the plans changed and an additional appropriation granted to take care of the extra cost of the new layout.

The plans were completed and construction bids taken in September 1940. Contracts were signed promptly and the construction proceeded under the direction of the Public Buildings Administration. The building was completed, dedicated and occupied in October 1941.

This Committee wishes to thank our Congressman, Mrs. Edith Nourse Rogers, for her interest in obtaining the grant for this building. The government agencies through which we worked were very cooperative.

Since the building is now a reality and we believe a credit to our Town, we make this as our final report and hereby petition to be discharged.

REPORT OF RETIREMENT BOARD

Contributory Retirement System

To the Citizens of the Town of Stoneham:

Following is the fifth annual report of this Board.

During the year 1941 twelve new members were added and one previous member was reinstated.

The membership was decreased by seven, as follows: four withdrawn; three deceased (of whom two were pensioners and one a member).

Two contributing members were transferred from the active membership list to the Pensioners when they attained the age limit for Town employees. Our total membership is now 91 as may be noted below, with the prospect of being considerably increased due to an amendment to our Laws governing Contributory Retirement Systems.

We have been extremely fortunate in the transaction of our Investments this year and are pleased to show an addition of over nine hundred dollars to our undistributed earnings.

Since war was declared your Board has deemed it advisable to support the call for purchase of Defense Bonds, although the rate of interest is not as high as the Law requires that we pay on the Funds of our System. This means that our Investment Income will necessarily be reduced in the future.

REPORT OF PARK COMMISSIONERS

To the citizens of Stoneham:

In keeping with the times, your commissioners took steps this year to handle the increasing use of the Town's park and playground facilities. Attendance figures show not only more traffic on all areas over those of preceding years but a greater use of the playgrounds from the point of view of organized games.

The result of the increased use of the facilities was reflected in greater demands both on maintenance and supervision. We again point out that the budget voted for the department was not adequate to provide good maintenance on a year-round basis.

The responsibility of supervision was placed directly on the Town due to the elimination of the WPA Recreation Project, which was announced in June. The curtailment of Works Progress Administration on the part of the Federal government also affected the project which was in operation on Recreation Park. This project involved the grading and seeding of the baseball diamond.

Funds to carry on the Summer supervised outdoor program were voted by the Finance Board from the emergency budget. Thus supervision was continued on all play areas, including the tennis courts. The department sponsored the annual playground field day as well as a community tennis tournament and also furnished prizes for the various events. The following supervisors were appointed: Lucy McCarthy, Rita Green, Clifford Thompson, Bernard Roach, Lawrence Hurley, and Donald Dillon.

The grading and seeding of the Recreation Park diamond was finally completed in August through the combined efforts of a private contractor and the Park Department. The contract work was furnished by the Joint Committee on WPA Projects. With the erection of a backstop and the cutting of the base paths scheduled for this Spring, it is expected that the diamond will be available for the summer season.

The completion of the baseball area will mark another milestone in the development of Recreation Park, making it available for use throughout the year. The progressive steps since 1939 include the skating rink, and the football and field hockey area. Provided the Town approves the budget as requested for 1942, the plan to further landscape and improve the park will go forward.

In addition to maintaining park and playground property, the department was again called upon to maintain the Town Hall grounds. In this connection a sub-committee of William F. Wilson and Superintendent Wardwell made a survey of the area and recommended the installation of an irrigation system to the Board of Selectmen.

The maintenance of the Veterans' Squares included Finnegan

Square at the intersection of Montvale Avenue and Cottage Street. Although the square had been officially named several years ago, it was not plotted for landscaping because of the lack of suitable land. The Town took ownership of an adjoining strip but no provision had been made to set a portion of it aside for this purpose. The landscaping was carried out in cooperation with Post 115 American Legion prior to Memorial Day. The Commissioners have recommended that the local Legion Post prepare an article for the coming Town Meeting to have the Town accept the land as a park, thus assuring permanent maintenance.

We again wish to direct attention to the facts concerning the status of Cody Square at the intersection of Summer and Pleasant Streets. The question of ownership of this triangle has not as yet been determined. The matter has been referred to the Town Counsel.

The limited budget did not provide for the enhancement of the triangles on a large scale, but the sowing of flowering plants, pansies, and salvia was carried out. The department feels that an area should be set aside on the Town Hall property for the improvement of its appearance through the summer months.

The winter recreation program centered around public skating and organized hockey. Kimball's Pond has again been made available through the generosity of the owners, the General Ice Cream Company. To further extend skating facilities, plans had been made to flood the Steele Memorial Playground. The plan was temporarily abandoned for the present due to the fact that the United States Army acquired the area for parking of its trucks.

The Recreation Park Rink schedule includes more than 35 hours weekly for public skating with Saturdays given over for children only, in addition to organized hockey. A welcome addition to the program is the Junior Hockey League sponsored by the American Legion. The league embraces boys of Junior High School age as well as a team from St. Patrick's High School. In all, it is estimated that more than 250 boys are engaged in this sport through the winter season.

With the emphasis on conservation of materials in connection with the armament program, it is felt that the Stoneham playgrounds will be used more and more. In addition to further development of Recreation Park, a wading pool for children is a major need. Another needed improvement is the construction of a field house with toilet facilities on Recreation Park.

In conclusion, we urge all civic and fraternal organizations to lend their assistance by sponsoring events for the playgrounds as well as activities which would further extend the use of the existing

facilities. It is our considered opinion that real progress could be made for the public good through the encouragement of our many local organizations in toward a wider use of the Park and Play-ground facilities on an organized basis.

NICHOLAS E. APALAKIS, Clerk.

Report of W. P. A. Coordinator

December 31, 1941.

To the Honorable Board of Selectmen:

Annual report of Work Projects Administration for the year 1941:

In January we had approximately one hundred persons working on W. P. A. in the various activities. Due to curtailment arrangements of the Federal Government, the white collar jobs were drastically cut before June 30. In the state of Massachusetts there were approximately 23,000 persons employed and this number was cut to about 5,000 which necessitated curtailing many of the activities in this branch of W. P. A. Our Recreation and Household Aid units, along with others, were discontinued at that time. The Sewing units throughout the state were greatly reduced. Eighty were suspended altogether; twenty-nine in the large cities were continued with a very much reduced personnel. Since that time none of the eighty have been reopened, but there is a chance that sometime in the near future, these units may be reorganized for National Defense.

The money voted at our Annual Town Meeting has carried on the work with a substantial amount saved to continue the work in 1942.

The operations division were not so drastically curtailed as the Federal Government considered that the work that they were doing was of a permanent character and of lasting benefit to the communities where it was performed. There was, however, a readjustment of the various schedules curtailing the type of work which could be performed and only essential projects, in the opinion of the Federal Government, can now be operated.

We have, in Stoneham throughout the year, had very little change in the number of persons working on manual projects; approximately sixty in number and this compares very favorably with the surrounding towns in other localities. This allowed us to operate with two crews of men and the same supervisors throughout the year.

Our Federal engineers have been changed quite often, but it has not held back the work as each man cooperated to acquaint the one coming in with what had been accomplished.

Many of the younger men employed on W. P. A. the first of the year have found private employment and those remaining are men of middle life or over whose opportunities for employment are more limited and considerable percentage of men have some handicap which unfit them for work in private industry. The work carried out has been as follows:

Drains: approximately 1895' with the necessary manholes and

catch basins. Work being done on Gerry, Benton, Franklin, Harrison and Ferdinand Streets as well as Grant Street.

Sewers: North Main Street, extending from Tedd's Inn to Collincote Street, Tremont Street and Chestnut Road; a distance of 1240' with 238' of curbing reset.

Steele Playground on Pine Street was graded and resurfaced.

Recreation Park: the baseball diamond was completed with the necessary grading and seeding.

A Lunch Project for Camp Rotary was conducted during the month of August by courtesy of the Federal Government and our neighboring city of Woburn under the school lunch setup.

Watermains have been laid on Chestnut Road, Grant Street, Park Street, North Street and Walnut Street — approximately 1800'. Part of the pipe was provided by the Federal Government and the balance furnished by the town. This project will continue until late summer.

Lindenwood Cemetery Building was constructed according to the plans with the cooperation of the Lindenwood Cemetery Trustees and the W. P. A. committee.

The **Town Infirmary Improvements** to the building and construction of a coal pocket was also considered of real value to the town.

Tree Planting project was carried out as far as possible during the spring months.

Moth Project operated for a short season destroying gypsy moths, tent caterpillars, etc.

Painting of fire and police stations and Emerson School was entirely completed.

Veterans' Graves project, which is carried out under the supervision of the Adjutant General's office at the State House was for the purpose of recording deceased veterans, locating graves in all cemeteries, verifying locations, obtaining and checking death certificates, preparing maps and plotting graves, preparing complete card files embracing all veterans buried in the town of Stoneham way back to the time of the Revolutionary War, preparing card file for sponsor and Adjutant General's office and for the veterans' service organizations. When completed these will be a record turned over to the town, brought up to date and kept under the supervision of the town officials.

Our Commodity Store has functioned throughout the year and under the Welfare Department gave aid and assistance to many needy persons.

Lindenwood Cemetery Wall: a large portion of wall was completed and the balance now in process of completion under a new grant of money for labor set up by the Federal Government.

The Map or Survey project was reduced in personnel due to private employment and enlistments in the army and navy. They have however, worked closely in cooperation with the Public Works Department to obtain accurate records for the use of the town. They have completed the establishment of coordinate positions of all street lines, intersection curves and angle points on streets from Marble Street northerly to Elm Street and from Winchester and Woburn bounds to Summer Street. The traverse system has been extended to include all new street developments. They are now completing the field work of locating the street points originally established by old surveys. They have drafted many maps showing existing physical locations of streets which will be of permanent record for the town. Due to cooperative work between the Public Works Department and the Survey unit, their work is now being accepted by the County Commissioners and recommended by the Superintendent of Public Works.

The outlook for the coming year is uncertain, but at the present time we are operating in such manner as to be ready for whatever changes may come.

We wish to thank all the various departments who have aided and assisted and cooperated in the work and especially the Board of Selectmen and our W. P. A. committee.

Respectfully submitted,

JAMES A. MUNRO,

Coordinator-W. P. A.

REPORT OF PLANNING BOARD

The Planning Board elected the following members as Officers of the Board for the year 1941 at its first regular meeting following the annual Town Meeting.

Chairman, Stephen Haseltine

Vice-Chairman, William A. Garside

Secretary, Joseph B. Geremonte

The Board felt that during the year it would accomplish better results if its activities were confined to the vigorous study of a few major problems confronting the Town, rather than attempting to study and compile reports on numerous lesser problems, which are not vital to the growth of the Town at the present time. This decision proved to be a wise move, since the results accomplished were much better prepared than they might otherwise have been.

The Civic Center Study has continued with the same enthusiasm shown in the past. Much valuable material and information on costs and financing of this noble project have been accumulated, to the end that a comprehensive report on Ways and Means of making this much needed change a reality, will be forthcoming in the near future.

Previous to the Annual Town Meeting, the Planning Board, along with other agencies within the town, was successful in gathering a large group of citizens to attend a Public Hearing at the State House, relative to the Stoneham-Wakefield-Reading Bypass. At this writing the bill containing provisions for this Bypass has not come before the Legislature.

The study of the advisability of the adoption of Chapter 211 of the Acts of 1936 providing for "An Improved Method of Municipal Planning," has continued, with lengthy discussions bringing to light the many advantages of this forward step in Municipal Planning.

Zoning has been under constant study and discussion, with a few important weaknesses coming to light. The most notable weakness is the existence of areas where land on one side of a street is in a different residence-classification than the opposite side of the same street. One article has been prepared to present to the townspeople at our next annual Town Meeting, remedying one of these cases. Others will be prepared for action at later Town Meetings, until the entire situation has been adjusted.

The board still feels that a larger sum should be allotted for Christmas Lighting, in order that Stoneham may rightfully take its place beside its neighboring towns and cities with a comparable display of Christmas decorations. The Board wishes to acknowledge with thanks, the untiring efforts displayed by Furio Bracciotti, local merchant; Percival H. Wardwell, Tree Warden, and the members

of the Park Department, for the creditable showing made in the matter of Christmas Lighting with the limited funds available.

Sundry development and gasoline service station layouts were presented to the Board for recommendations, as were numerous suggestions and plans for beautifying various areas within the Town.

REPORT OF COMMITTEE FOR THE REVISION OF BUILDING LAWS

To the Voters of the Town of Stoneham:

The Special Committee appointed by a vote of the Town under Article 73 of the warrant for the Annual Town Meeting for the year 1941, has performed its duties and recommends the following changes in the building regulations as adopted on March 18, 1929.

I. It is recommended that Section 4 be stricken out and the following inserted in place thereof:

Any person intending to erect any dwelling house, garage, stable, shop, store, chimney, or other structure or building in the Town of Stoneham, shall, before proceeding to erect the same, give notice in writing to the Building Inspector of such intention and of the character and location of the proposed building, and before proceeding to break ground for erection of same, or lay the foundation thereof, obtain a permit from the Inspector of Buildings, and providing the plans and specifications thereof conform to the building regulations **zoning by-laws and regulations of the Board of Survey** of the town, the Inspector shall grant said permit. No person having obtained such a permit shall proceed with the construction of the building without first having notified the Building Inspector, informing him of the date when the construction will start. All permits shall be void if operations thereunder **are not commenced within ninety days after the date of the permit, or if the operations thereunder are discontinued for a period of more than six months.**

2. It is recommended that Section 6 of said building regulations be stricken out and the following be inserted in place thereof:

Every building hereinafter built in the town shall have foundations resting on solid ground, piles or rock; they must start below frost level and no foundation shall be laid on frozen ground. Below grade the foundation walls shall be built of stone, concrete, brick, or concrete block. Stone walls shall have a thickness not less than 24 inches at the bottom and 16 inches at the top. Stone in first course shall be full width of wall continuously and the wall must be well bounded with through stone. The Inspector may, if deemed necessary by him, require a stone wall to be laid in mortar composed of one part Portland cement, two parts lime and not over five parts sand. Where stone walls are laid up dry they must be pointed with mortar composed of one part Portland cement, one part lime, and not over four parts sand. Foundations walls of brick shall be not less than twelve inches thick of hard burned brick laid in one-two-five cement, lime and sand mortar and bounded by header course every eighteen inches. Brick foundation walls to rest on concrete footing twelve inches thick and sixteen inches

wide, or footing of brick suitably laid to give proper bearing sixteen inches wide on the soil. Concrete foundation walls shall consist of one part Portland cement, two and one half parts sand, and five parts stone. Wall not over **seven** feet high may be ten inches thick. Walls over **seven** feet high to be twelve inches thick. In any case all concrete foundation walls must have a concrete footing twelve inches thick and sixteen inches wide, **unless due to ledge or other subsoil conditions the Inspector may permit lesser dimensions.**

Cement block foundation walls must be twelve inches thick, laid of approved blocks in mortar composed of one part Portland cement, two parts lime, and not more than five parts sand. All blocks in first course above footing course to have holes filled in solid with mortar composed of one part Portland cement and not over seven parts sand. Footing course to consist of concrete 12" thick and 16" wide or continuous row of concrete blocks turned lengthwise across the wall to give bearing on soil of at least 16" in width these blocks to be filled with mortar, 1 part Portland cement, and not over seven parts sand.

Every basement or cellar shall be provided with a direct exit to the outside of the building.

3. It is recommended that Section 9 of said building regulations be stricken out and the following inserted in place thereof:

All buildings shall be supported in cellars and basements by suitable cement filled iron columns, not less than $3\frac{1}{2}$ " in diameter, (except that in buildings of more than **two and one half stories** the cement filled iron columns shall be increased in size to properly support added load) or by brick, stone, or concrete piers, supported by suitable brick, stone or concrete footings.

In buildings not over **two and one half stories** in height, suitable cedar posts, not less than 6" in diameter, supported on brick, stone or concrete footings, may be used. In any case, piers or posts shall not be spaced over 8 feet on centers. All footings for posts in buildings not over **two and one half stories** in height shall be of one-two and one half-five concrete or the equivalent thereof and shall be 24 x 24 in. and 12 in. thick. For buildings more than **two and one half stories** high, footings shall be used of same materials, as above required, but shall be increased in size to properly support additional load. Porches, piazzas, and steps shall be supported in similar manners and foundations thereof shall be carried to a depth below frost line.

4. It is recommended that Section 11 of said building regulations be stricken out and the following be inserted in place thereof:

The external walls of any barn or out-building shall not be placed nearer than ten feet to any house or nearer than five feet to any other building, unless said external walls be of masonry and of a thickness prescribed for the erection of external walls in

masonry building. Such walls shall be built twelve inches above roof boarding and shall be covered with metal, or may stop at roof boarding when so allowed by Inspector. Porches, piazzas, bays, etc., are included in this regulation. All additions or alterations that shall be made to buildings already erected, shall be subject to these regulations. All buildings hereafter built of wood to be used as dwellings, for mercantile purposes or stables, shall have walls and roof entirely boarded to studs or rafters and shingles, clapboarded, sheathed or covered with klap siding or cement plaster on the outside walls and roof thereof shall be shingled, slated, or tarred and gravelled or covered with suitable material. All roofs of new buildings must be covered with a fire resisting roof covering, and all old roofs, when renewed, must be covered the same as new roofs.

No buildings shall be erected or altered for a dwelling house with tenements or apartments with a kitchen above the second floor, unless the building is of first class construction.

5. It is recommended that Section 13 of said building regulations be stricken out and the following be inserted in place thereof:

All wooden buildings and their projections, used as dwellings, stores, stables, or manufacturing purposes, shall have sills not less than four by six inches and if over two story and a half high, the sills shall not be less than **four by eight inches**. Whenever ledges are used in dwellings, there shall be fire stops cut in tight and also at floor line; also over all cross bearing partitions.

6. It is recommended that Section 14 of said buiding regulations be stricken out and the following be inserted in place thereof:

All dwellings including porches or piazzas, and other attached structures shall have plates not less than four by four inches and shall have rafters not less than two by six inches set not more than **twenty inches** on centers. No studding for any part of the outside walls of any building shall be less than **2x4x16"** on centers: if over 30 ft., rafters shall not be less than **2x8** in. Hip rafters shall be at least 2 in. deeper than common or jack rafters. Valley rafters shall be of the same size as hip rafters and doubled or their equivalent.

7. It is recommended that Section 17 of said building regulations be stricken out and the following be inserted in place thereof:

Each building hereafter erected or enlarged shall have all its parts of sufficient strength for their purposes. The maximum size of all floor joists shall be two by eight (2x8) inches, spaced not over 16 inches on centers, except that joists in attic floors shall be not less than two by six (2x6) inches, not over **16 in.** on centers, in case attic is not to be finished for room, but if attic is to be finished for rooms the minimum size of all floor joists shall be two by eight (2x8) inches, **sixteen inches** on centers.

8. It is recommended that Section 25 of said building regulations be stricken out and the following be inserted in place thereof:

Every hot air register box placed in floor or partition shall be set in a non-combustible border at least $1\frac{1}{2}$ in. in width, shall be made of tin plate properly fitted to the border, and shall be at all points at least 1 in. away from any woodwork. All woodwork within $1\frac{1}{2}$ in. of the register box shall be covered with metal, provided, however, that if double boxes are used satisfactory to the inspector the border may be omitted. There shall be one register without valves or louvres in every furnace installation.

The principal changes accomplished by the foregoing sections are indicated by bold face.

Respectfully submitted,

WARREN M. MIRICK, Chairman
ORVIS H. SAXBY, Secretary

REPORT OF STATE AUDITOR

THE COMMONWEALTH OF MASSACHUSETTS

Department of Corporations and Taxation

Division of Accounts

State House, Boston

Henry F. Long, Commissioner

Theodore N. Waddell, Director of Accounts

November 12, 1941

To the Board of Selectmen

Mr. Fred A. Schneider, Chairman

Stoneham, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the Town of Stoneham for the period from March 10, 1938 to June 18, 1941, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

THEODORE N. WADDELL,
Director of Accounts.

Mr. Theodore N. Waddell

Director of Accounts

Department of Corporations and Taxation

State House, Boston

Sir:

In accordance with your instructions, I have made an audit of the books and accounts of the Town of Stoneham for the period from March 10, 1938, the date of the previous examination, to June 18, 1941, and report thereon as follows:

The financial transactions, as recorded on the books of the several departments receiving or disbursing money for the town or committing bills for collection, were examined and checked for the period covered by the audit.

The books and accounts in the accountant's office were examined and checked in detail. The recorded receipts were compared with the treasurer's books and with the records in the several departments collecting money for the town or responsible for the billing of charges due to the town. The records of disbursements were checked with the treasury warrants, with the payments as shown by the treasurer's books, and with the approved pay-rolls and vouchers on file. The appropriations, transfers, and loans authorized, as entered on the ledgers, were checked with the town clerk's records of town meeting votes and with the finance committee's records of transfers from the reserve fund.

The ledger accounts were analyzed and checked in detail. A trial balance was taken off, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town on June 18, 1941.

In checking the paid vouchers on file it was noted that several bills incurred in one year have been paid in the succeeding year from appropriations intended for the current year's expenses. This practice should be discontinued and, in the future, unpaid bills of prior years should be paid only after an appropriation has been voted therefor in accordance with the provisions of Chapter 179, Acts of 1941.

In connection with the road machinery fund, attention is called to the fact that receipts from the rental of highway equipment credited to the fund may be used only by a vote of the town appropriating a specific amount from such receipts on hand for the maintenance and operation of road machinery or for the purchase of new equipment.

The books and accounts of the town treasurer were examined and checked in detail. The recorded receipts were analyzed and compared with the records in the several departments in which charges originated or in which money was paid into the town treasury. The disbursements were checked with the selectmen's warrants authorizing the treasurer to pay out town funds and with the accountant's books.

The cash book additions were verified and the cash balance on June 18, 1941, was verified by actual count of the cash in the office and by a reconciliation of the bank balances with statements furnished by the banks of deposit.

The payments on account of maturing debt and interest were proved with the amounts falling due during the period covered by the audit and were checked with the cancelled securities and coupons on file.

The books and accounts of the town treasurer as custodian of the several trust funds and as treasurer of the retirement system funds were examined and checked in detail.

The savings bank books and securities representing the investments of the several funds were personally examined, the income was proved, and all transactions were verified and compared with the treasurer's and the accountant's books; and in the case of the retirement system funds, were checked with the records of the Retirement Board.

The treasurer's records of tax titles held by the town were examined and checked in detail. The taxes transferred to the tax title account were compared with the tax books, the recorded redemptions on account of tax titles were checked to the treasurer's cash book, and the tax titles disclaimed and foreclosed were

compared with the recorded affidavits on file. The tax titles held on June 18, 1941, were listed and checked with the records in the Registry of Deeds.

It was noted that checks for salaries and wages due employees of the several departments are being turned over to certain employees of the departments for delivery to those entitled to the payments. It is recommended that all checks be either distributed by the treasurer to the payees or mailed to them by him whenever personal delivery is impractical, since no person other than the treasurer or his duly appointed assistant has the legal authority to make payments in behalf of the town.

Appended to this report are tables showing a reconciliation of the treasurer's cash, summaries of the tax title accounts, together with schedules showing the condition and transactions of the trust and retirement funds.

The books and accounts of the collector were examined and checked in detail. The accounts outstanding at the time of the previous examination were audited and all subsequent commitments of taxes, assessments, water and departmental accounts were checked in detail and proved.

The collector's cash books were footed, the recorded collections were compared with the payments to the treasurer as shown by the treasurer's and the accountant's books, and the recorded abatements were checked with the assessors' records of abatements granted and with the records of other departments authorized to grant abatements.

The outstanding taxes, assessments, water and departmental accounts were listed and reconciled with the accountant's ledger, and were further verified by mailing notices to a large number of persons whose names appeared on the books as owing money to the town, the replies thereto indicating that the outstanding accounts, as listed, are correct.

It was noted that, according to the books, real estate taxes on certain parcels are unpaid as far back as 1936, and it is therefore recommended that the collector of taxes make a determined effort to bring about a prompt settlement of the outstanding taxes of prior years, in order that he may comply with the terms of his surety bond which calls for faithful performance of the duties of his office.

The financial records of the town clerk were examined and checked in detail. The recorded receipts on account of town licenses, permits, recording fees, etc., were examined and checked in detail. The payments to the treasurer were compared with the treasurer's and the accountant's books, and the cash balance was verified by count of the cash in the office.

The records of dog licenses issued on behalf of the county

and of sporting licenses, the proceeds of which are paid to the State, were examined, checked, and compared with the amounts due and paid to the town, county and State.

A summary of the town clerk's receipts and a proof of the cash balance are appended to this report.

The surety bonds furnished by the town officials required by law to be bonded were examined and found to be in proper form.

The records of deposits for water and sewer connections were examined and checked. The recorded deposits, the transfers to cover the cost of work done, and the amounts refunded were verified and proved with the treasurer's and the accountant's books.

The records of departmental cash collections by the sealer of weights and measures, by the building, plumbing and milk inspectors, as well as by the health, school, library and cemetery departments, were examined and checked. The payments to the town treasurer were verified and the cash on hand in the several departments were proved by actual count.

It is recommended that all departments collecting money for the town pay over such collections to the treasurer at least once a week.

For the cooperation rendered by all the town officials during the progress of the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

HERMAN B. DINE,

Assistant Director of Accounts.

REPORT OF THE COMMITTEE ON THE INSTALLATION OF THE TOWN ORGAN

This organ, a gift to the Town of Stoneham, is a special concert organ, built for Radio Station W N A C and used by them for about twelve years. In order to install it in the Town Hall it was necessary to build chambers which would throw the sound into the auditorium.

At the first meeting of the committee it was decided that any construction should be done under the direction of Adden, Parker, Clinch and Crimp, architects of the Town Hall building. It was also decided that all construction should be first-class and fire-proof and that any part of the work visible from the auditorium must be in keeping with the design and decoration of the room.

Plans were prepared for the two chambers and the control room in the basement. Bids were asked from a number of companies familiar with this kind of work. The William H. Porter Company, Inc. of Watertown was the low bidder. The architects join with the committee in stating that excellent work was done by the general contractor and the sub-contractors giving a fine, finished job.

Arrangements were made with Mr. Albert L. Jones to remove the organ from W N A C and install it in the new location. Mr. Jones has had many years of experience in building and installing organs and has been in charge of the maintenance of this particular organ for a number of years.

When Mr. Jones took the contract it was with the understanding that he could not give his full time to the work as he was already under contract to give emergency service to a number of organs. This explains the time that has been required to install the organ.

Most of the organ is as good as new. Those parts subject to wear have been repaired or replaced. The organ should give good service for many years with only minor repairs.

The organ was made by the Rudolph Wurlitzer Company. It is a two manual instrument with ninety-two stop keys, arranged in an arc to give ease of operation. The stops are also controlled by thirty combination pistons, enabling the player to change registration at will, while playing, without lifting fingers from the keys.

The console is movable, having twenty feet of flexible cable and wind pipe. This will allow the console to be placed in various positions to suit the various occasions.

Over a thousand pipes are located in the two chambers, behind the decorative grilles which show in the auditorium. These chambers are of steel and concrete, with very smooth inside surfaces which insure against loss of tone and brilliance. In addition to these

pipes there are chimes, xylophone, orchestral bells, chrysoglott and other orchestral percussions.

The action is electro-pneumatic, of the best and fastest design which enables the organist to play the most rapid music and get perfect response.

In the control room in the basement are the blower, generator, relays and switches.

A seven and one-half horse power motor drives the fan which provides thirteen hundred cubic feet of air a minute at fifteen inches pressure. It also drives the generator which makes the low voltage current which operates the organ.

You will have some idea of the size of the organ when we tell you that about ten tons of parts had to be moved from Boston to Stoneham.

The committee wishes to express its appreciation to the architects who took such keen interest in this installation; to the contractors who cooperated so fully at all times and did excellent work; to Mr. Jones whose patience and devotion to his job have insured a fine working instrument. We also appreciate the great interest shown by the many citizens who have closely followed the progress of installation.

Within a short time everyone interested will be able to hear this organ in operation.
